

State Enterprise "Moldagroteh» address: sos. Work, 271, Chisinau, Republic of Moldova, MD-2002 tel.: (+373 22) 50-39-55, 52-71-11 fax: (+373 22) 55-26-49 E-mail: moldagroteh@moldova.md Peter Poian Born on October 21, 1948, the village Delacău, Grigoriopol Mechanical Engineer, graduate of the Agricultural Institute in Chisinau (1970). Since 2003, Director General of State Enterprise "Mold-Agroteh". Vice President of NEPA. Awarded the Order "Red Flag of Labour" medal and "Civil Merit". Holding honorary title "Merited". Said "Bussinessman of the year" (1999-2001). lately it has become obvious need for some companies able to form a network that provide technical and material basis of the agricultural sector. for this purpose, based on enterprise the Government of the Republic of Mol-dova.

, The SE «Moldagroteh» was created in 2000 on the basis of the SE «Arca-Moldova» (former «Selhoztehnica»). Blocks of state-ow'ned shares in 29 profile enterprises of the republic were transferred under its control. Enterprise has re-established links with manufacturers of agricultural equipment from Russia, Ukraine, Byelorussia and of other neighboring foreign states. Operation was arranged under the system of direct deliveries from major plants

producing tractors, combined harvesters, agricultural machines and equipment (Kharkov Tractor Plant, «Южмаш», Production Association «Гомсельмаш», «Ростовсельмаш», ТД «Брацлав», JSC of open type «Уманьферммаш», etc.). Attention is paid to development and restoration of material and technical base. SE «Moldagroteh» maintains and develops best traditions in matters of observing interests of agricultural producers by providing them with services in effective and qualitative manner. In order to extend the supply and sales network in Moldova, there were organized specialized shops at the enterprises under «Moldagroteh» control. Not only machinery is offered to a buyer, but also fertilizers, pesticides, herbicides and seeds. Today, «Moldagroteh» is a center, which coordinates material and technical supply of agriculture of the whole country. Informational center is created at the enterprise, where it is possible to obtain qualified consultation and information on available agricultural machines, spare parts and repair services provided to economic agents of Moldova operating in this field. During period of the main agricultural campaigns, informational center is working round-the-clock. Enterprise's activity is widely supported by authorities of the republic and is recognized by agricultural workers.
